Additional setting of Standing Anchor at Slope Net

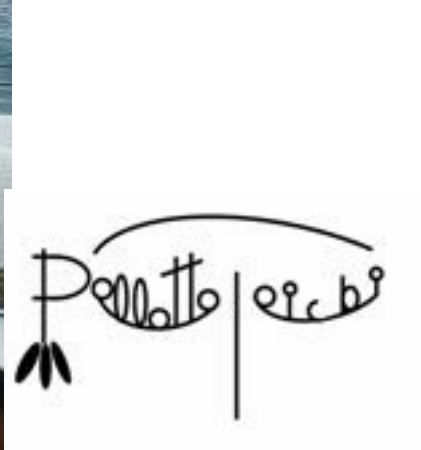

Eco-tourism for Moms and Children

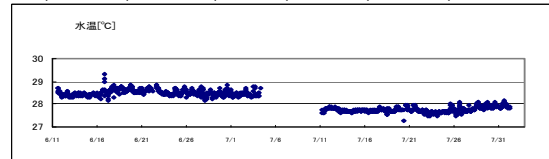

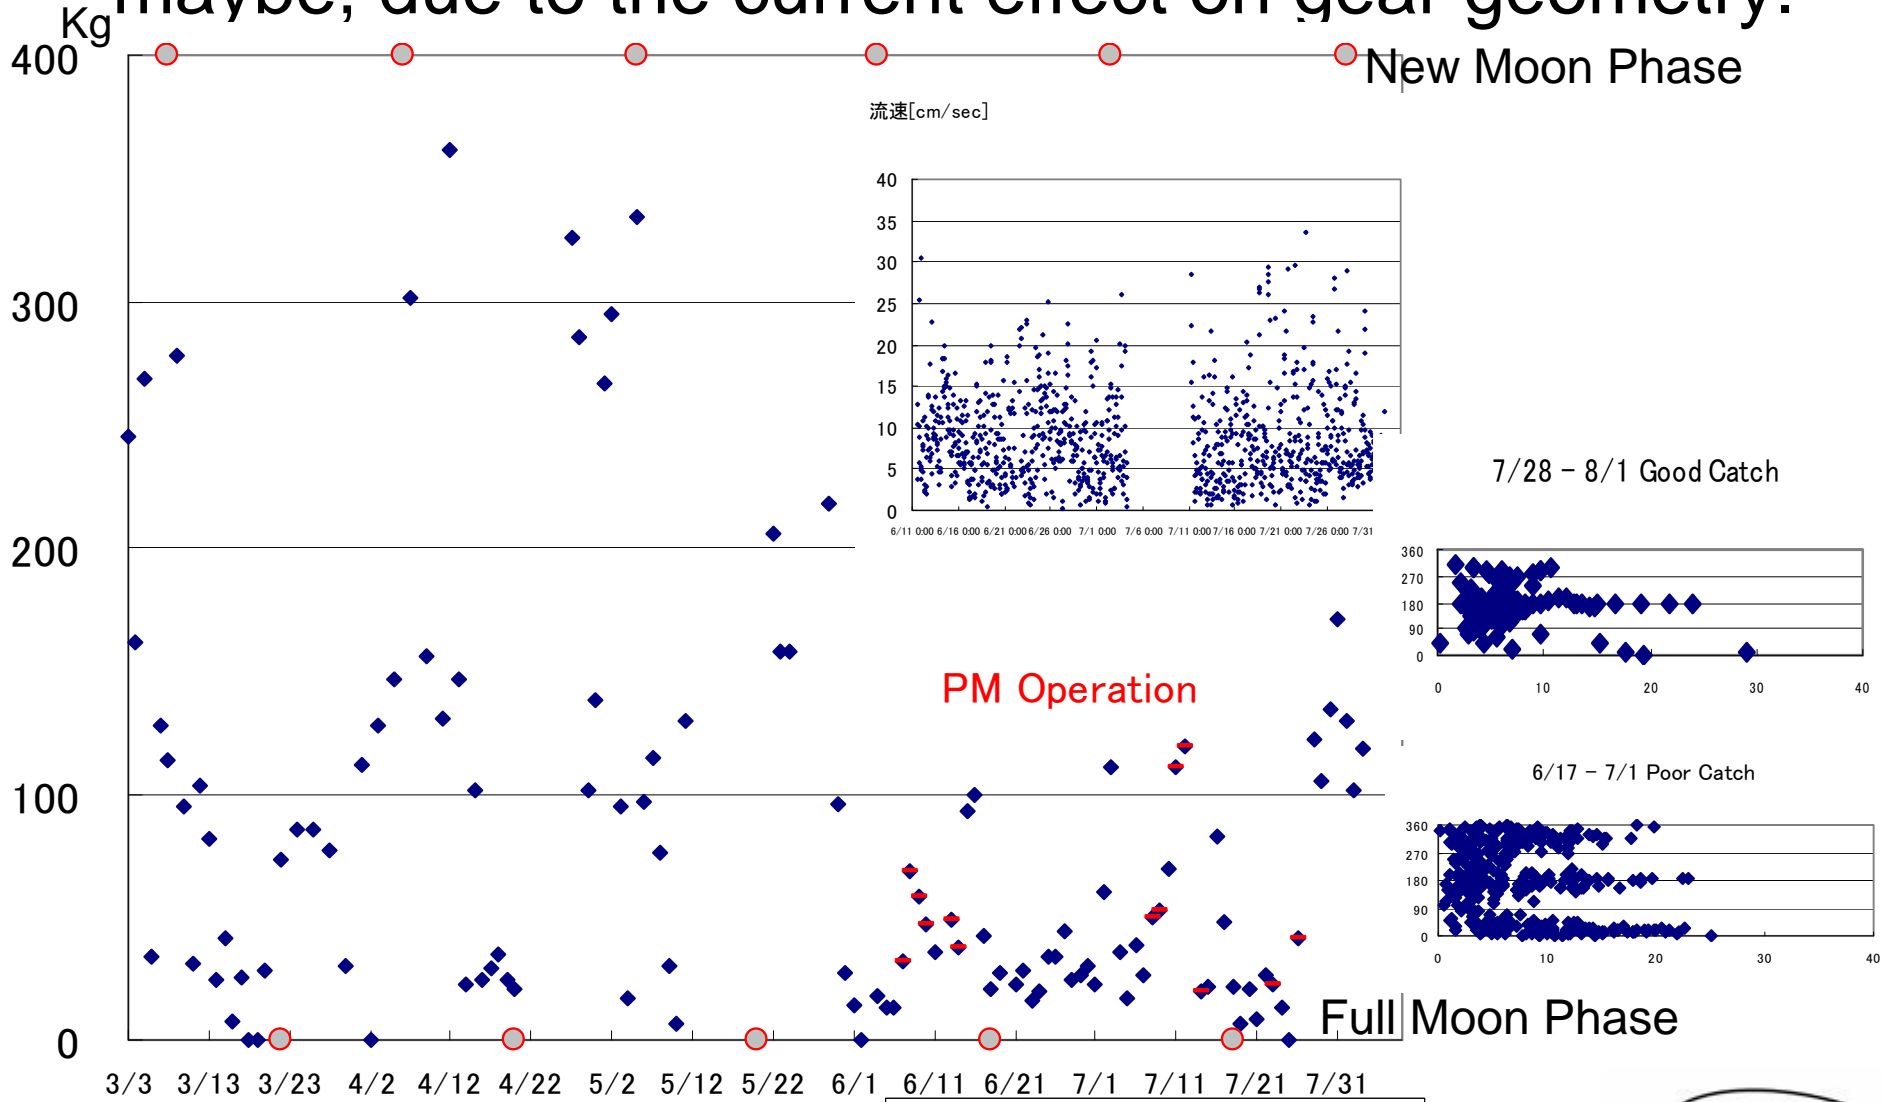

Ikan besar,
ikan banyak,
ikan besar
bagus...!!!

Icy waters for freshness keeping

while, the catch variation is extremely big...!
 maybe, due to the current effect on gear geometry.

Research works started for re-adjusting the gear design

Mesh size measurement

Depth meter attachment at chamber

at slope joint part

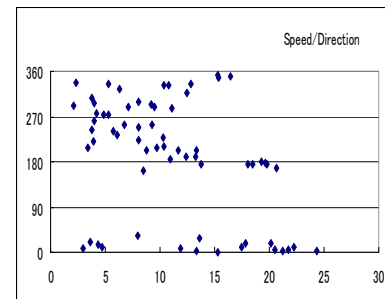

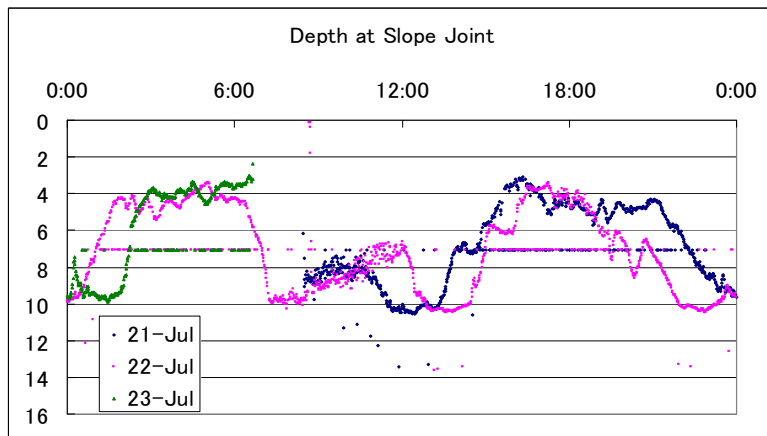

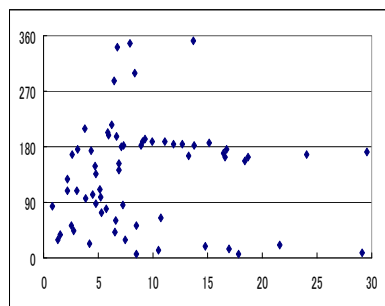

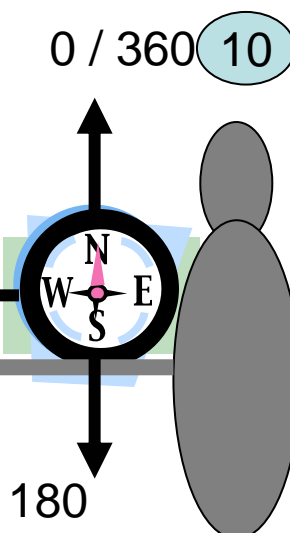

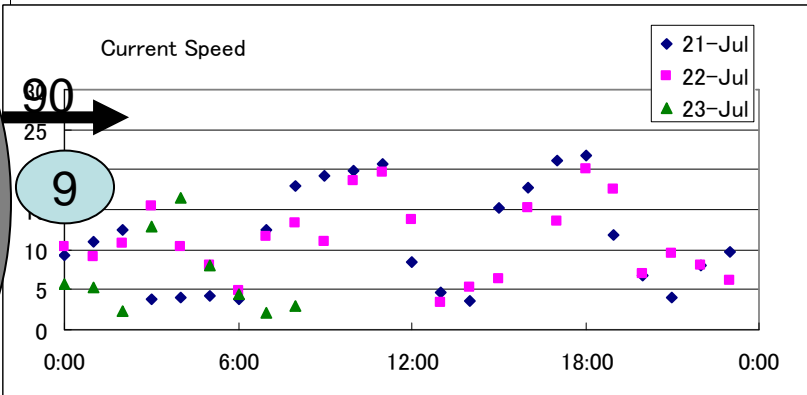

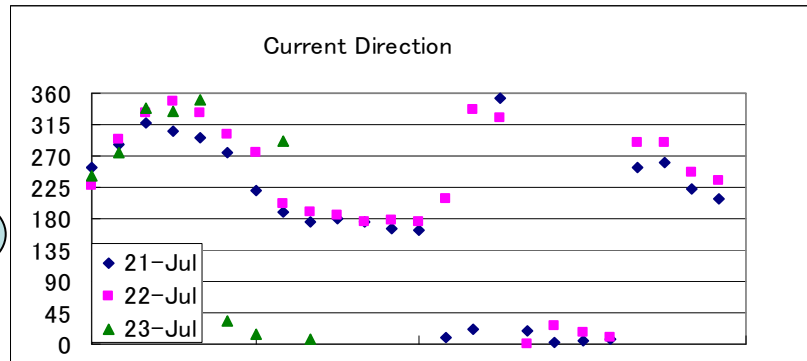

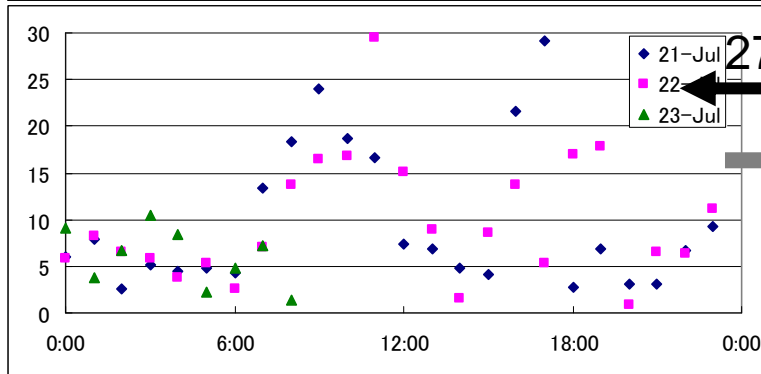

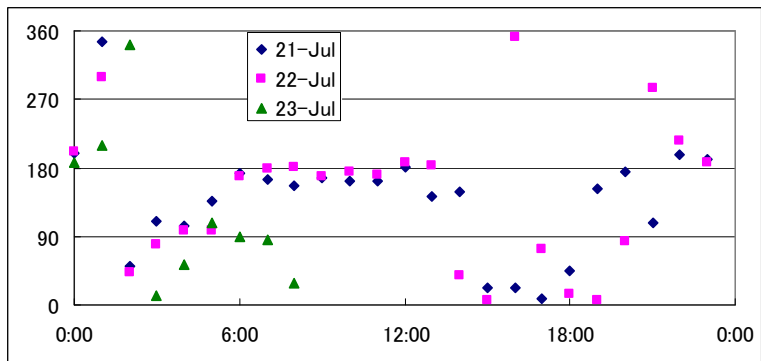

Current meter

Penatto pesci

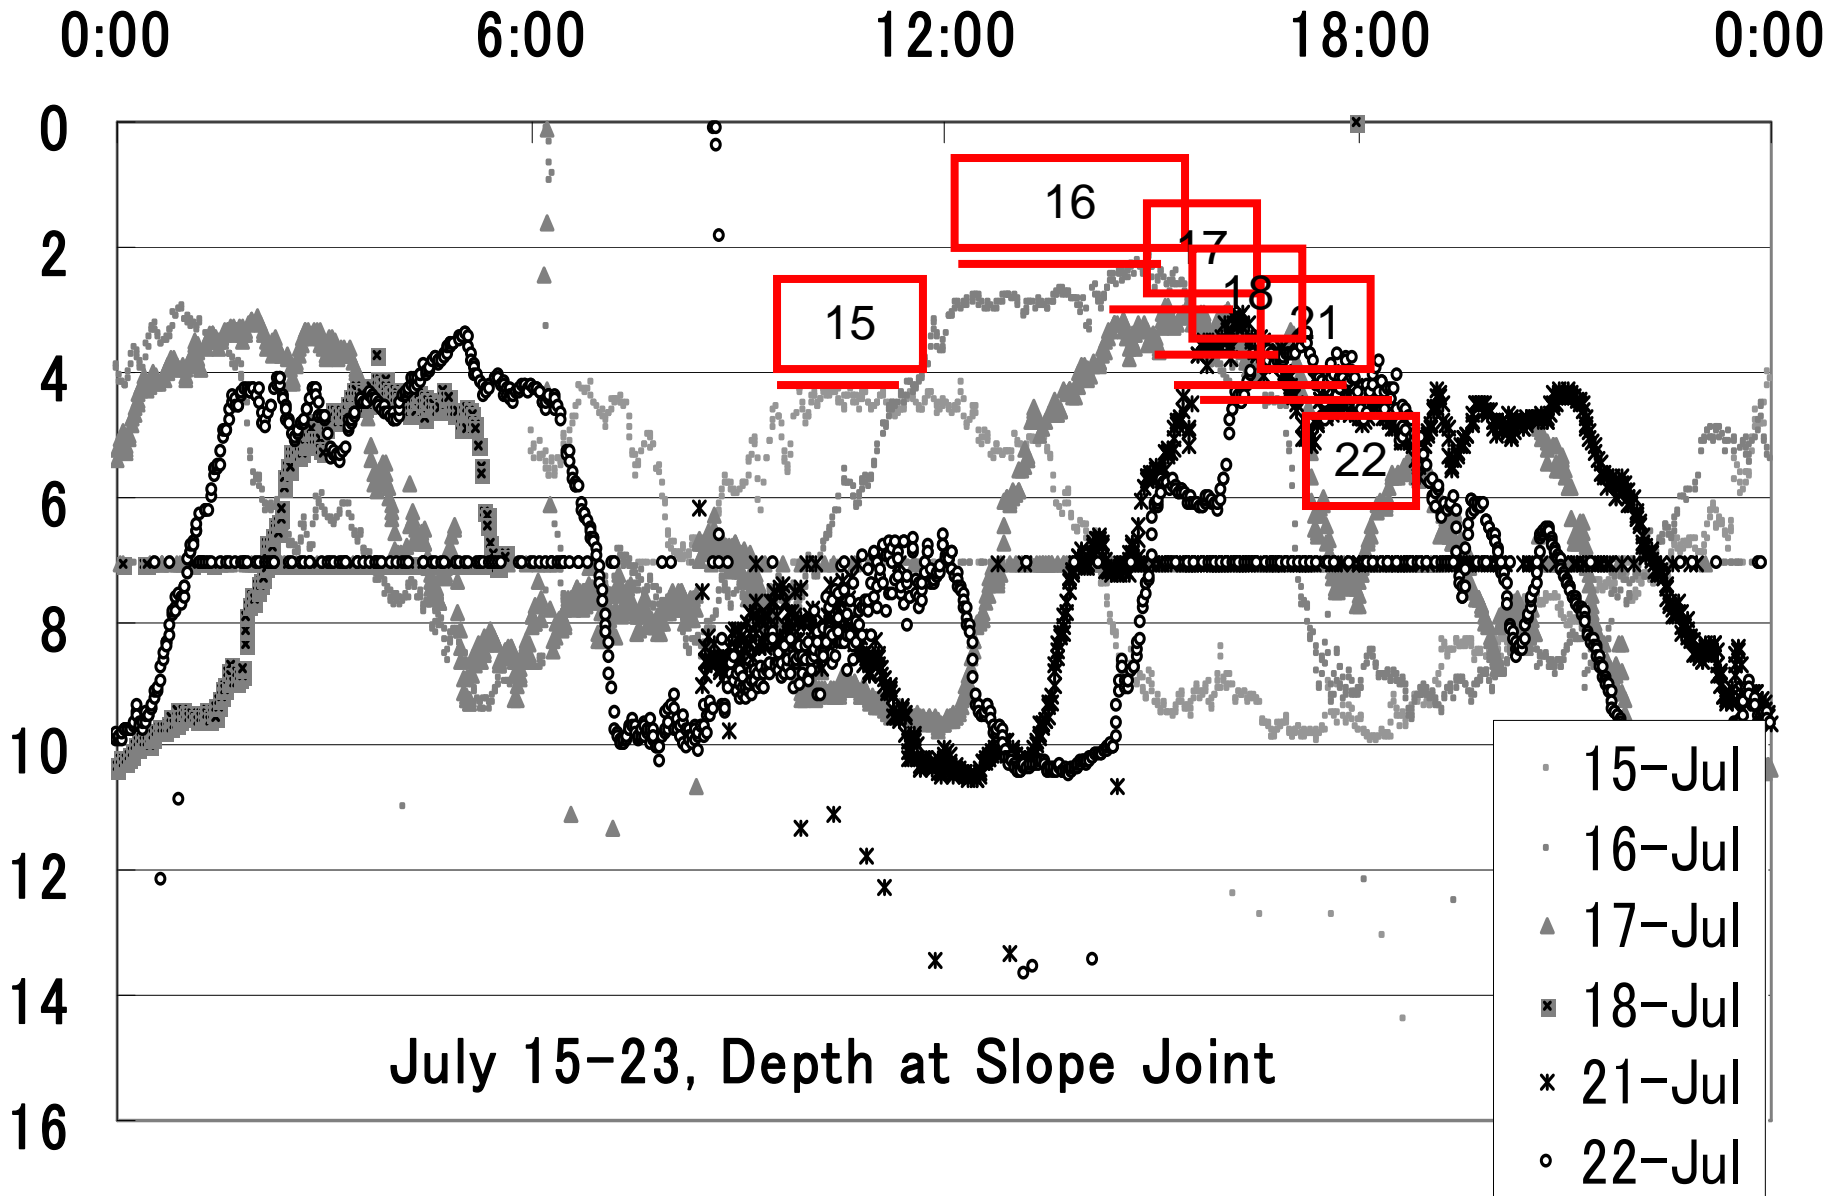

No.9 Playground-Offshore side

No.10 Chamber net side
